An Experimental Culture of All Kinds of Things Made by Everybody

People still like to make things. We can be crafty, curious and experimental. And we like to connect across cultures.

David Gauntlett, FCAD's Tier I Canada Research Chair in Creative Innovation, invites you to join him in looking for shards of hope beyond the creepy gloom of surveillance capitalism.

4:00 PM - 6:00 PM @ The Catalyst
Rogers Communications Centre (RCC) Room 230

This is a FREE event. RSVP:
